YOUR SKIN, OUR EVERYTHING

At The Skin Centre we understand that delivering exceptional, quality cosmetic results is as much art as science. Our highly-skilled team have a deep understanding of the science behind skin health, as well as the latest developments in aesthetic medicine. Combined with an artistic eye, we pride ourselves on our ability to tailor treatments to your unique needs to deliver the best results for your skin.

Experience advanced skin treatments at our dermatology practice for comprehensive medical, surgical and cosmetic solutions.

COSMETIC DERMATOLOGY CONSULTATION

\$149

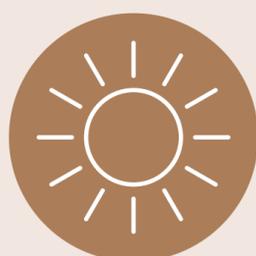

Tailored to your skin's unique needs with a Senior Dermal Therapist or Registered Nurse. Experience a comprehensive skin analysis using photographic imaging technology, laying the groundwork for targeted and effective treatments. Leave with a personalised treatment and skincare plan, skin diagnostic images and actionable insights into your skin's health.

**required for all new patients interested in cosmetic treatments.*

THE ADVANCED SKIN COLLECTION

COLLAGEN INDUCTION THERAPY (SKIN NEEDLING)

Skin needling creates micro wounds to the dermal layers of skin to stimulate your own repair mechanisms leading to an increased production of collagen and elastin. Red LED is used prior to the needling session to charge cells and boost collagen.

Full Face & Neck \$299 Add Decolletage \$119

TIXEL REJUVENATION

A non-ablative fractional skin rejuvenation system. A great alternative to laser as it uses direct heat rather than light-based technology to resurface and tighten. Tixel treats delicate facial skin, including eyelids, under eyes, neck and decolletage. Tighten skin, treat fine lines and sun damage with minimal discomfort and downtime. This treatment is safe and effective on all skin types.

Eye Rejuvenation \$350 Full Face & Neck \$549
Eye & Perioral \$399 Add Decolletage \$450

HIGH INTENSITY FOCUSED ULTRASOUND (HIFU)

HIFU utilises micro-focused ultrasound energy to instantly contract collagen fibres and promote long term collagen growth for a naturally tighter look without the downtime. A popular choice of treatment for tightening the jowls, cheeks and brows or defining the jawline.

Full Face & Neck \$1299 Brow Lift \$169
Cheek & Jowls \$799 Neck \$699

RADIO FREQUENCY SKIN NEEDLING

RF skin needling uses radiofrequency and minimally invasive micro needles that deliver precise energy into the deeper layers of the skin. RF needling stimulates the production of new elastin and collagen as well as tightening existing elastin fibres. Ideal for skin tightening and rejuvenation. This treatment is safe and effective for all skin tones with minimal downtime.

Full Face & Neck \$499 Add Decolletage \$199

LED

LED (Light Emitting Diode) therapy is a non-invasive skincare treatment that utilises various wavelengths of light to target specific skin concerns. This gentle and painless treatment is suitable for all skin types and offers a safe and effective way to achieve healthier, rejuvenated skin without any downtime.

THE MEDICAL COLLECTION

LASER GENISES

A revolutionary, non-ablative laser treatment that stimulates the skin's natural processes to improve the appearance of fine lines, wrinkles, redness, enlarged pores, uneven skin texture and scars, helping to achieve beautiful radiant skin. You can expect to see subtle yet consistent results after each treatment, (without unwanted side effects such as bruising or excessive skin irritation).

EXCEL V+

An innovative, non-ablative laser that quickly and effectively treats more than 20 common skin concerns, including unwanted veins, rosacea, age spots, fine lines, wrinkles, acne, acne scars and many more. Improvements are generally seen within two to six weeks with minimal downtime.

Full Face	\$350	Chest (Poikiloderma)	\$450
Leg Veins	\$450	Hands	\$350

BBL HERO

Uses a light-based energy, heating the surface layers of skin using different wavelengths to target specific concerns. BBL can quickly and effectively reduce pigmentation, redness and rejuvenate the skin with minimal downtime.

Full Face	\$550	Hands	\$200
Neck	\$250	Full Back	\$1600
Decolletage	\$450	Half Back	\$850
Arms (3/4)	\$550	Legs (1/2)	\$1000

ENLIGHTEN PICO GENESIS LASER

This next generation laser is an advanced, non-thermal way to treat pigmentary concerns. PicoGenesis harnesses a photochemical energy paired with an ultra-short pulse duration, the perfect pair to create shockwaves that shatter pigmentat within the skin without damaging the surrounding tissue, while causing dermal disruption and remodelling for a rejuvenating effect.

Full Face	\$450	MLA (Scarring)	\$450

INTENSE PULSED LIGHT

Used to treat vascular lesions, redness, sun induced pigmentation, poikiloderma, rosacea and inflammatory acne on the face, neck, décolletage and hands. This latest generation IPL device contains a dual filter technology to deliver precise and effective treatments and results without compromising on safety with minimal downtime.

Face, Neck & Décolletage	\$1000		
Face	\$550	Décolletage	\$450
Neck	\$200	Hands	\$250

FRAX LASER

The Nordlys Frax uses two separate non-ablative fractionated wavelengths, each with its own characteristics and indications. The 1940nm wavelength is effective in treating superficial pigmentation, surface rejuvenation and wrinkling. The 1550nm targets the deeper dermis skin layer to stimulate collagen formation and reduce acne scarring. This dual wavelength device can be used separately or combined for an amplified treatment on suitable patients.

(1550 ONLY)

Face, Neck & Dec	\$2690	Hands	\$590
Neck	\$690		

AVICLEAR

AviClear is the first laser of its kind for the treatment of acne. Engineered with a revolutionary 1726 nm wavelength for all skin types, it selectively targets and shrinks the sebaceous glands (oil glands), eliminating acne at the source.
